

GET REWARDED FOR A CLEAN ROADSIDE INSPECTION!

Congratulations to our
2007 Horizon Freight System
Safety Award Winners!

Help bring Horizon Freight System's safe stat scores down and get rewarded at the same time. In an effort to bring down our safe stat scores, Horizon has been giving out truck washes for every clean roadside inspection. Horizon will continue with this reward program, only now we are offering a different gift. As soon as we receive a copy of your clean roadside, a company organizer/cooler (shown on right) will be sent out to you as a sign of our appreciation.

Lowering our safe stat scores is important for a number of reasons, but essentially it lowers the number of times that you will get pulled over by the D.O.T. We have not made enough progress in this area, and need to do a better job. Please remember these important items if you are pulled over for a roadside inspection:

- Always have your logbook current, this is the first thing that they look at.
- Be organized, have all of your paperwork ready (CDL, Physical, Truck Inspection).
- Make sure your truck has been maintained, especially tires, brakes and lights. These are the most common violations that Horizon drivers are cited for. (Always do a pre-trip inspection!)
- Make sure if a violation is not found that you get a roadside showing this. In some cases, the officer will let you go without issuing a report. We want one if it is clean.
- If you feel that a violation was found in error, let the main office know so we can try and fight. (In many cases, we can remove violations).

PLEASE REMEMBER: All roadsides need to be logged at the appropriate time, on-duty not driving. If there were equipment violations, we will need to have the PM inspection and any receipts sent up showing these repairs were made. The driver should have a copy of the roadside in their truck along with sending a copy to the corporate office.

Call Joy Zelenskas at 1-800-480-6829, ext. 171
with any questions regarding roadside inspections.

We thank all of our award recipients for their dedication to high safety standards. In 2007, nearly 140 drivers were accident- and claim-free. This is an outstanding achievement – your commitment to safe driving makes Horizon a stronger company.

Happy Holidays – here's wishing you all a safe, healthy 2008!

The 2007 safety award winners will receive a cash bonus based on the number of years without an accident or cargo claim, as well as this emergency tire inflator kit and air gauge.
